AMERICANS FOR TaxFairness

- GE made \$88 billion over the last 11 years but used corporate tax loopholes and offshore tax havens (where it has stashed \$108 billion) to reduce its federal income tax rate to just 2.4%. GE received a tax subsidy of nearly \$29 billion over the 11 years.
- In four of those years, GE reported more than \$22 billion in U.S. profits, yet paid no federal income taxes and received \$4.8 billion in tax rebates.
- While dodging paying its fair share of federal income taxes, GE pocketed \$21.8 billion in taxpayer-funded contracts from Uncle Sam between 2006 and 2012.
- GE's CEO plays a leading role in coalitions that want to cut corporate taxes, cut Social Security, and raise the retirement age from 67 to 70. His \$59 million GE retirement account is enough to provide him with a \$336,007 retirement check each month.
- GE has eliminated more than 15,000 American jobs since 2004, while adding 30,000 jobs overseas during that time.

WHO PAYS? IT'S TIME BIG CORPORATIONS AND THE WEALTHY PAY THEIR FAIR SHARE OF TAXES. CLOSE TAX LOOPHOLES FOR CORPORATIONS THAT SHIP U.S. PROFITS AND JOBS OVERSEAS.
