CORPORATIONS PAY THEIR FAIR SHARE***

(Washington, DC) New polls from [ABC/Washington Post](#) and [Fox News](#) show that support for making the wealthy and corporations pay their fair share, including by raising the corporate tax rate, continues to have strong support from the public.

“For far too long big corporations have rigged our tax code with loopholes to escape paying their fair share of taxes, while average Americans and small businesses pick up the tab. While corporate America has been making record profits, 55 corporations paid nothing in taxes last year and 1,500 paid an effective tax rate of under 8% in 2018. Now they are whining that a 28% corporate tax rate is too high. That’s not what the public believes,” stated Frank Clemente, Executive Director of Americans for Tax Fairness.

“These two new polls show us what [poll](#), after [poll](#), after [poll](#) has been saying since President Biden released the American Jobs Plan and Made in America Tax Plan: raising the corporate tax rate and making the wealthy pay their fair share is what Americans across the country and political spectrum want to see,” added Clemente. “Democrats and Republicans in Congress need to listen to their constituents and pass these two plans right away.”
