

## 137 NATIONAL & 639 STATE & LOCAL ORGANIZATIONS OPPOSE “ROUND 2” OF TRUMP-GOP TAX CUTS TO STOP ANOTHER BIG GIVEAWAY TO THE WEALTHY

September 12, 2018

Dear Member of Congress:

We urge you to reject a “Round 2” of tax cuts proposed by President Trump and Republicans in Congress that is similar to those enacted last year, which once again would primarily benefit wealthy Americans. The legislation introduced in the House yesterday would cost \$2.8 trillion over 10 years, even more than was lost from the first round of tax cuts. The richest Americans do not need another massive tax cut; they and America’s corporations need to start paying their fair share, so we have the resources needed to protect Social Security, Medicare and Medicaid and to invest in education, infrastructure and many more services working families and communities need to thrive.

The original Tax Cuts and Jobs Act (TCJA) bestows most of its benefits on the wealthy and large corporations. Its [\\$1.9 trillion cost](#), according to the Congressional Budget Office (CBO), will vastly enlarge the federal debt and be used as an excuse for conservatives to enact deep cuts to Social Security, Medicare, Medicaid, education and other vital public services that tens of millions of people rely on—mostly seniors, children, women, and people with disabilities. Extending or expanding the law’s existing provisions will likewise primarily enrich the already wealthy while further threatening essential services and investments.

In addition to the \$1.9 trillion cost of the TCJA, the Joint Committee on Taxation estimates that extending the new House bill dealing with individual tax provisions (including those affecting pass-through businesses) will [cost an additional \\$630 billion over three years](#), exploding to \$2.8 trillion over 10 years.

The House legislation includes major tax breaks that mostly or exclusively benefit high-income taxpayers: the reduction in the top individual income tax rate that only affects the tiny percentage of people with annual [income above \\$500,000](#) (\$600,000 for couples), the special new deduction for individuals owning so-called “pass-through” business entities, the tax cuts for multi-million-dollar estates (which doubled the amount of a couples’ assets exempt from the estate tax from \$11 million to \$22 million), and the increase in the amount of income exempt from the Alternative Minimum Tax (AMT).

The Institute on Taxation and Economic Policy (ITEP) [estimates](#) that 43% of the tax cuts in this measure would go to the wealthiest 5% (incomes above \$290,000). The bottom 60% (incomes below \$81,000) would get only 19% of the tax benefits. Therefore, this measure is not a middle-class-focused tax cut but rather another benefit primarily for the wealthy.

In particular, the pass-through deduction, which reduces individuals' taxes on their business income, has been misleadingly sold as a "small business" tax cut, but most of the benefits flow to wealthy business owners (such as President Trump) and wealthy investors. In 2024, [61% of the benefits will go to the wealthiest 1%](#) of pass-through business owners, while just 4% will go to the bottom two-thirds, including the solo practitioners and proprietors of Main Street shops that truly personify "small business," according to the Center on Budget and Policy Priorities. The pass-through deduction is already being used by people who can afford highly-paid tax lawyers and accountants, while its byzantine rules increase the complexity faced by actual small businesses' tax compliance. Extension of this special pass-through deduction would perpetuate these skewed benefits and sources of unfairness.

To reduce the large increase in debt caused by the first round of tax cuts, President Trump has proposed [slashing \\$1.7 trillion](#) from Medicare, Medicaid, food stamps, housing assistance, assistance for people with disabilities, environmental protection, tuition aid and dozens of other important services. The House Republican budget would do even more severe damage—[slashing \\$5 trillion from critical services](#), including \$2 trillion from Medicare, Medicaid and the Affordable Care Act.

America cannot afford the Trump-GOP tax cuts benefitting the rich and corporations, and we sure cannot afford a Round 2 that puts the interests of the wealthy over everyone else while maintaining a lower tax rate on income earned from wealth compared to wages and salaries. We urge you to oppose the new House bill and instead support legislation to ensure that the wealthy and large profitable corporations pay their fair share so that we have the revenue needed to invest in our families and communities to strengthen public education, fix infrastructure, make healthcare more affordable, assist families in need of affordable childcare, housing, nutrition and other basics, and provide a secure retirement with dignity.

Sincerely,
