

## PROTEST THE TWO-YEAR ANNIVERSARY OF THE TRUMP-GOP TAX CUTS – WEDS., DECEMBER 11th

Two years ago this month President Trump and Congress rammed through tax cuts that will cost \$2 trillion and mostly favor the wealthy and big corporations. While we lost the legislative battle, our community won the message war and made the Trump-GOP tax cuts a loser in 2018.

Taxes will be a major issue in 2020 again, and we have two jobs in that debate. We need to show how the 2017 Trump-GOP tax cuts have been an economic failure, dramatically widening the wealth gap and threatening vital public services. We must also make the case for raising trillions of new dollars to protect and strengthen Social Security, Medicare and Medicaid and to invest in healthcare, education, childcare, housing, infrastructure, clean and renewable energy and a lot more.

Organizations and members of Congress are coming together on **Wednesday, December 11**, to raise our voices to expose the truths about the Trump-GOP tax law and demand a Fair Share Tax system that requires the rich and corporations to pay their fair share so we can create an economy that works for all of us. Please join us!

### **HERE'S WHAT WE'RE PROTESTING & DEMANDING**

***Amazon, Netflix, GM and 57 other big corporations paid \$0 in federal income taxes last year!***

***Jeff Bezos, Bill Gates and Warren Buffett have more wealth than the bottom half of the country—they and all wealthy people need to start paying their fair share!***

***We need to raise trillions of dollars from the rich and corporations if we want improved schools; affordable healthcare, childcare and housing; a Green New Deal; and more!***
