

TRUMP-GOP TAX SCAM SIX-MONTH ANNIVERSARY

DAYS OF ACTION

President Trump signed the Tax Cuts and Jobs Act (TCJA) into law on December 22, 2017. Trump and the Republican Party promised that most of the tax cuts would go to middle-class families claiming that “the typical American household [would get] a \$4,000 pay raise, and corporations would “shower their workers with bonuses” and produce “massive investments” in the economy.

Instead, six months after its passage, here are the results of Trump’s massive tax giveaway:

- 83% of the tax cuts are still going to go to the richest 1%.
- Just 401 out of 5.9 million businesses have given their workers a pay hike due to the tax cuts.
- Just 4% of workers have gotten a pay hike due to the tax cuts—a one-time bonus or wage hike.
- The cost of the tax cuts has ballooned from \$1.5 trillion to \$1.9 trillion, emboldening GOP lawmakers to demand even more cuts to Medicare, Medicaid, Social Security, education and more.
- Trump proposed a budget that would cut funding for these critical services by \$1.7 trillion.
- Prescription drug companies, health insurers, Wall Street banks and most other major corporations are getting huge tax breaks and not sharing the wealth with their employees or consumers.

Despite this abysmal record, **President Trump and Congressional Republicans are planning to double down before the November Election and try to pass a Round 2 Tax Scam** that could cost another \$1 trillion. We must mobilize to defeat it.
