[PLAN W/O PAY FOR] Below is a description of President Biden's economic plan. Please read the description and then indicate whether you support or oppose it.

Biden's economic plan would aim to create millions of good paying jobs by rebuilding America's roads, bridges, and other infrastructure, strengthening American manufacturing, ending tax breaks that encourage corporations to offshore jobs, helping small businesses recover, and expanding the use and development of clean energy. It would also make healthcare premiums, childcare, and housing more affordable, would increase investment in public education and long-term care for the elderly, guarantee at least 12 weeks of paid family and medical leave, and support middle-class and low-income families with children. The cost of this plan would be roughly \$4 trillion. **[SPLIT A]**
